

Temporary Job Estimate/Order Form

Dear Customer,

This form's important role is for quoting and ordering system back-up if there is a technical issue with the automated system in the website. Sorry in advance for the inconvenience.

Please complete this form and email back to us for Job Estimation Summary of your pricing.

Then, when you are ready to move forward, please email confirmation that you would like to place the order. We will immediately begin preparation for the arrival of your samples.

Next, please print a hard copy of the completed form and send with your sample list and clearly labelled sample material.

This is important, so we can easily identify your samples and technicians will reference the document throughout the production process. Feel free to add any last-minute notes or instructions to the hard copy.

Step 1

Are all your samples requiring the same preparation?

If not, no problem. Just separate them into groups of identical preparation first and clearly label which sample codes are attributed to which group (e.g. Group 1, 2 or 3, etc.).

You may have a total of 1 group of only 1 sample, or 3 groups with a total of 50 samples needing 3 different types of preparation, such as different slide size or some with ground w/cover slip and others polished. All good.

Step 2

Just tell us how many samples and groups in total and then how many samples are to be prepared for each group.

Step 3

Then, answer the questions in the table form and send to us for a Job Estimation or to place an Order.

Lastly, if you have more than one group, copy & paste the table form, change the Group #, Quantity of samples and sample Codes and provide the different sample prep for each group.

Remember to zip-lock bag all your samples with clearly labelled codes to match your list for each group and send with a hard copy of the Job Estimate Form – we don't want any mix ups!

All sample material should be sent to the following address for preparation:

44 Joseph Avenue, Moggill, QLD, 4070

If you have any questions, contact us: via email: sales@thinsection.com.au or telephone: +61 0404 044 991.

Please note prices do not include shipping or Credit Card charges a fee of 2.5% will be incurred.
